Findings 2.0.4

The EPA was first alerted to the problem of PFAS in drinking water in 2001 but in.. You can tell us what you need,we accept wholesale and retail?the wholesale will have the big discount?thanks for visiting our store.. Previously, our analysis of unpublished EPA data estimates that water supplies for 110 million Americans may be contaminated with PFAS – an estimate that could be much too low, based on our new findings.. Dear friends,we are the professional supplier of jewelry accessories from Yiwu,we have thousands of goods in our store.. EWG has mapped PFAS contamination of drinking water or ground water in almost 1,400 sites in 49 states.
